Health & Safety

## Functional description

UV-C light is short-wave and loaded with energy.

Used selectively, it destroys the DNA – i.e. the genetic information – of viruses, bacteria and other germs. This prevents the reproduction of pathogens and thus

renders them harmless. Did you know? The sun also emits UV-C light. Because of the ozone layer, however, it does not reach the earth's surface.

## Features

Environmentally friendly disinfection. Free of chemicals and ozone.

Fully automatic operation.

Digitally validated and certified.

## Technical data

Installation	Open or integrated
External dimensions	Length: 444 mm; Width: 353 mm; Height: 157 mm
Total weight	7 kg
Enclosure material	Stainless Steel, Aluminium
Color	Silver
Ambient temperature, operation	5 to 45 °C
Electrical connection	230 V AC voltage, 50 Hz
Electrical connection power rating	90 W
UV-C-wavelength	254 nm (disinfecting, min. log level 3; 99.9%)
Radiant power	> 250 Joule/m <sup>2</sup>
UV-C Illuminant	Service life > 9.000 h
Safety	Fully automatic operation with fail-safe function.

Made in Germany; CE; EMC Directive 2014/30/EU; Low Voltage Directive 2014/35/EU; RoHS 2 Directive 2011/65/EU; Photobiological Safety EN 62471; Protection class IP20.

We'll always be glad to help you!
