Chemical-free ambient air disinfection

# INTERex 25/50

## UV-C Disinfection Solutions

Say goodbye to viruses, bacteria and fungi. UV-C light makes germs in the ambient air harmless. Simply press the start button and experience how good it feels to be safe.

### Infection-control

- ✔ **The power of UV-C**  
INTERsens 250 disinfects the ambient air with UV-C with total reliability. Its effectiveness has been clinically tested and proven.
- ✔ **Protect your future**  
INTERsens 250 is effective against new germs too and safeguards your company.
- ✔ **Just as you choose**  
INTERsens 250 is flexible and meets individual requirements. You get exactly what you need.

### Functional description

UV-C light is short-wave and loaded with energy.

Used selectively, it destroys the DNA - i.e. the genetic information - of viruses, bacteria and other germs. This prevents the reproduction of pathogens and thus renders them harmless. Did you know? The sun also emits UV-C light. Because of the ozone layer, however, it does not reach the earth's surface.

### Features

Environmentally friendly disinfection. Free of chemicals and ozone.

No external UV-C radiation. No toxic interchangeable filters.

Digitally validated and certified.

### Award winning

#### Best Product and Best Brand 2021

The GoGaS INTERx series for chemical-free ambient air disinfection wins the internationally renowned PLUS-X Award 2021 as Best Product and Best Brand 2021 in the category room disinfection. This means we offer a unique, complete range of precisely fitting systems for infection control in all areas of any building. Safety without compromises.
