- ✔ **Protect your future**
INTERsens 250 is effective against new germs too and safeguards your company.
- ✔ **Just as you choose**
INTERsens 250 is flexible and meets individual requirements. You get exactly what you need.

Functional description

UV-C light is short-wave and loaded with energy.

Used selectively, it destroys the DNA - i.e. the genetic information - of viruses, bacteria and other germs. This prevents the reproduction of pathogens and thus renders them harmless. Did you know? The sun also emits UV-C light. Because of the ozone layer, however, it does not reach the earth's surface.
