GoGaS: Sustainable system solutions for your buildings - now also with electric heat pumps and ventilation systems from DAIKIN.

Whether it's a logistics hall, a factory, a row of shops, a restaurant or an office complex: anyone planning a B2B property today is confronted with numerous challenges, because not only are the demands of the users high, but climate change, environmental protection and pandemics also require innovative and efficient solutions.

Where people work or consume, where products are manufactured, processed, shipped or stored: The indoor climate matters. Anyone who operates a modern industrial hall, for example, has to cool it in summer, heat it in winter, provide fresh air, lighting and a hygienic environment - all of which should of course be cost-saving, efficient, sustainable, environmentally friendly and practical to use.

GoGaS offers a unique overall portfolio in the field of building technology: Sustainable system solutions in the field of electric heat pumps, air-solar systems, heat recovery and ventilation solutions for halls or commercial spaces. Every customer receives a perfectly tailored service package with reliable all-round service that covers all phases of a project, from the initial consultation and system selection to planning, execution and maintenance.

A perfect overall portfolio needs competent partners

In order to always offer its customers the optimal solution, GoGaS works closely with system partners whose technologies in the field of sustainable building solutions perfectly complement GoGaS' own products. We are pleased to welcome DAIKIN as a new system partner with immediate effect! The innovative company from Unterhaching sets new standards in the field of electric heat pumps - and thus fulfils our guiding principle "Best climate for your buildings"! As a technology leader in heat pump technology, DAIKIN has the largest eligible product portfolio on the market. From now on, our customers will benefit from the extensive expertise that DAIKIN brings to the table as our partner in the area of federal subsidies for efficient buildings (BEG).

Electric heat pumps from DAIKIN - we take care of everything!

Those who choose electric heat pumps from our new system partner DAIKIN as part of our building solutions can sit back and relax: In line with our corporate philosophy, GoGaS will take care of the entire project implementation for you:

- Selection and system configuration
- Calculations
- Support with the application for subsidies
- Planning and coordination with architect and building contractor
- Assembly, installation and maintenance

Do you have further questions or would you like an individual offer? Please contact us at any time, we will be happy to advise you!

This is GoGaS

Established in 1946, GoGaS has become a key innovation and technology partner to many customers and Who is Who in their industries, providing sustainable, environment friendly and innovative turnkey solutions for buildings, manufacturing process up to CO2 neutral operation. The unique portfolio includes a wide range of modular system and turnkey solutions such as IR, UV, UV-C, Air-condition, Heating, Cooling, Ventilation, Solar Systems and others for stationary, mobile and portable in- and outdoor applications. The company is active in several standardization committees, defining the next generation of technology standards such as TGA+.

GoGaS is a stakeholder in leading trade associations and initiatives, e.g. the German Engineering Association e.V. (VDMA), figawa, Export Initiative Energy, ELVHIS. (VDMA), figawa, Export Initiative Energy, ELVHIS. As an active partner of the Sustainability Initiative "Blue Competence", GoGaS is also driving the future of environment friendly and energy efficient planning, building and operating of B2B buildings, thus optimizing its CO2 footprint and maintaining the highest possible asset valuation, ROI and TCO for investors, owners, operators and tenants at the same time. The company is also involved in key research programs of the EU and industrial technology partners. GoGaS provides its customers with turnkey solutions, reducing the number of interfaces, eliminating delays in the Supply Chain and project execution and provides a lifetime warranty and support service.
