

Press Release

GoGaS launches the 2021 VARIOMAX® series of patio heaters

GoGaS launches the 2021 VARIOMAX® series of its Infrared Patio Heaters, for the professional, save and reliable usage in hotels, restaurants, stadiums, arenas, commercial and industrial applications, where energy efficiency and low CO2 emission is a must.

- Energy-efficient premium solution for hotels, restaurants, stadiums, commercial, industry
- Instant comfort, sustainability and highest efficiency
- Winner of the Plus X Award as best product
- Up to 12 times more efficient than traditional patio heaters
- Best no-x value, per DVGW G 638, DIN-EN419 cert.
- Wind- and weatherproof aluminum housing
- Integrated mounting plate, simple to install
- Available as 6kw and 12kw with super high grid efficiency
- Works with natural gas and liquefied gas
- Made in Germany

The Plus X award-winning VARIOMAX® series guarantees the highest efficiency in its class and is available both as 6KW and 12 KW version. Its elegant industrial design and aluminum housing fits perfectly to every environment and ensures a save and reliable operation, no matter what your wind and weather conditions are. Instant comfort, safety and best in class energy efficiency, provides comfort and well feeling while keeping the energy consumption low, keeping your energy spend at an absolute minimum during all seasons.

Installation is both, super easy and fast, due to the integrated mounting plate, that come with every VARIOMAX®. All models can be operated by either natural gas or liquified gas and work with every standard 230 VAC / 50Hz power outlet. The power consumption of as little as 29 Watt, makes the VARIOMAX® also the Champion in this category, as all system modules, GoGaS provides to its customers. As part of its sustainability strategy and customer commitment.

Another USP is the weight of just 13 KG, respectively 17,5 KG which makes VARIOMAX® the Winners in this category as well. On top of this, all VARIOMAX® models are also available in custom specific color and of course with the customers logo and CI branding.

The calculation of the entire system performance in the customers application is precisely done using applying the DVGW calculation and simulation model, section G638 and is part of the service GoGaS provides to all its customers. Providing this service, GoGaS supports its customers both is upgrading existing systems to the modern VARIOMAX® series and planning the highest efficiency solutions for Greenfield buildings. On top of this, all VARIOMAX® modules ensure NO-x class 4 with as little as 16,2 and respectively 14,4 mg / kWh. A save and environment friendly decision for every customer and application.

VARIOMAX® Patio Heaters are Made in Germany and certified according to the highest safety standard DIN-EN419, ensuring a save and reliable operation for many years to come.
